Satellite Remote Sensing for Archaeology

Sarah H. Parcak

Satellite Remote Sensing for Archaeology Sarah H. Parcak

This handbook is the first comprehensive overview of the field of satellite remote sensing for archaeology and how it can be applied to ongoing archaeological fieldwork projects across the globe. It provides a survey of the history and development of the field, connecting satellite remote sensing in archaeology to broader developments in remote sensing, archaeological method and theory, cultural resource management, and environmental studies. With a focus on practical uses of satellite remote sensing, Sarah H. Parcak evaluates satellite imagery types and remote sensing analysis techniques specific to the discovery, preservation, and management of archaeological sites.

Case studies from Asia, Central America, and the Middle East are explored, including Xi'an, China; Angkor Wat, Cambodia and Egypt's floodplains. In-field surveying techniques particular to satellite remote sensing are emphasized, providing strategies for recording ancient features on the ground observed from space. The book also discusses broader issues relating to archaeological remote sensing ethics, looting prevention, and archaeological site preservation. New sensing research is included and illustrated with the inclusion of over 160 satellite images of ancient sites.

With a companion website (www.routledge.com/textbooks/9780415448789) with further resources and colour images, *Satellite Remote Sensing for Archaeology* will provide anyone interested in scientific applications to uncovering past archaeological landscapes a foundation for future research and study.

From reader reviews:

Earline Martin:

Do you have favorite book? In case you have, what is your favorite's book? Guide is very important thing for us to find out everything in the world. Each reserve has different aim as well as goal; it means that publication has different type. Some people really feel enjoy to spend their a chance to read a book. They can be reading whatever they have because their hobby is actually reading a book. What about the person who don't like reading a book? Sometime, person feel need book if they found difficult problem or maybe exercise. Well, probably you'll have this Satellite Remote Sensing for Archaeology.

Jennifer Witherspoon:

Information is provisions for folks to get better life, information nowadays can get by anyone from everywhere. The information can be a know-how or any news even an issue. What people must be consider whenever those information which is from the former life are hard to be find than now's taking seriously which one is acceptable to believe or which one often the resource are convinced. If you find the unstable resource then you obtain it as your main information there will be huge disadvantage for you. All of those possibilities will not happen in you if you take Satellite Remote Sensing for Archaeology as the daily resource information.

Katrice Fredericksen:

The book untitled Satellite Remote Sensing for Archaeology is the e-book that recommended to you to read. You can see the quality of the e-book content that will be shown to anyone. The language that creator use to explained their ideas are easily to understand. The writer was did a lot of analysis when write the book, so the information that they share to you is absolutely accurate. You also will get the e-book of Satellite Remote Sensing for Archaeology from the publisher to make you considerably more enjoy free time.

Armida Shipman:

Reading a guide make you to get more knowledge from it. You can take knowledge and information from your book. Book is published or printed or illustrated from each source this filled update of news. With this modern era like today, many ways to get information are available for anyone. From media social including newspaper, magazines, science publication, encyclopedia, reference book, book and comic. You can add your knowledge by that book. Isn't it time to spend your spare time to spread out your book? Or just in search of the Satellite Remote Sensing for Archaeology when you required it?
