The Terror Dream: Myth and Misogyny in an Insecure America Susan Faludi

It has become clear over the years that the reaction of America's politicians and media to the attacks of 9/11 was bizarrely misdirected and dangerous to our national security. But no one has fully probed its cultural roots. Until now. Pulitzer Prize-winning journalist and bestselling author Susan Faludi brilliantly demonstrates how our culture's seemingly inexplicable response was actually a reflex set centuries deep in the American grain. Her analysis of what went on in the months and years after 9/11 will shock even those who thought they knew the full measure of that tragedy (as her account of the post-9/11 media marketing of flight-suit superheroes, cowering "security moms," Jessica-Lynchesque helpless "girls," and Daniel Boone-wannabe politicians will outrage and amuse).

A masterwork of historical interpretation and a Rosetta stone for deciphering the ongoing spectacle of American politics, journalism, and culture, *The Terror Dream* flushes from hiding a forceful dynamic that disfigures our lives even in times of normalcy, and that, unless it is confronted, will send us reeling in a wrong direction the next time tragedy strikes.
