**Research Methods for Business: A Skill-Building Approach** Uma Sekaran, Roger Bougie

*Research Methods for Business: A Skill-Building Approach* is a concise and straightforward introduction for students to the world of business research. The skill-building approach provides students with practical perspectives on how research can be applied in real business situations. Maintaining *Uma Sekaran's* popular and accessible style of writing, *Roger Bougie* draws upon his extensive experience of the field to present an up-to-date guide on business research for the aspiring future manager.

The sixth edition has been substantially revised to go beyond the scientific approach and gives students a comprehensive introduction to what constitutes good research. This edition includes a range of new material on alternative approaches to business research, including three new chapters on: The Critical Literature Review, Observation, and Questionnaires. Other chapters on The Broad Problem Area and Defining the Problem Statement, Research Design, Interviews and The Research Report have also been substantially revised.

The new edition also features cases from Europe, Asia and the US to give students a global view of modern business research methods. Examples are drawn from different areas of business - such as human resources management, strategic management, operations management, finance, accounting, and information management - to provide students with a comprehensive overview of the applications of research methods.

An extensive set of resources accompany this text, including:

- Video material developed by the author, giving extra explanation on difficult topics
- PowerPoint slides for each chapter
- Additional case studies
- Lecturer test bank including multiple choice, true false, short answer and essay questions
- Data sets
- Over 250 quiz questions for students' self-study
