Engineering Drawing for Manufacture (Manufacturing Engineering Modular Series) Brian Griffiths

The processes of manufacture and assembly are based on the communication of engineering information via drawing. These drawings follow rules laid down in national and international standards. The organisation responsible for the international rules is the International Standards Organisation (ISO). There are hundreds of ISO standards on engineering drawing because drawing is very complicated and accurate transfer of information must be guaranteed. The information contained in an engineering drawing is a legal specification, which contractor and sub-contractor agree to in a binding contract. The ISO standards are designed to be independent of any one language and thus much symbology is used to overcome any reliance on any language. Companies can only operate efficiently if they can guarantee the correct transmission of engineering design information for manufacturing and assembly.

This book is a short introduction to the subject of engineering drawing for manufacture. It should be noted that standards are updated on a 5-year rolling programme and therefore students of engineering drawing need to be aware of the latest standards. This book is unique in that it introduces the subject of engineering drawing in the context of standards.

From reader reviews:

Antoine Dejean:

Now a day folks who Living in the era just where everything reachable by interact with the internet and the resources in it can be true or not demand people to be aware of each data they get. How individuals to be smart in having any information nowadays? Of course the answer is reading a book. Reading through a book can help folks out of this uncertainty Information mainly this Engineering Drawing for Manufacture (Manufacturing Engineering Modular Series) book because this book offers you rich info and knowledge. Of course the information in this book hundred % guarantees there is no doubt in it you know.

Frank Cockerham:

The e-book untitled Engineering Drawing for Manufacture (Manufacturing Engineering Modular Series) is the reserve that recommended to you to study. You can see the quality of the e-book content that will be shown to you actually. The language that article author use to explained their ideas are easily to understand. The writer was did a lot of investigation when write the book, therefore the information that they share for your requirements is absolutely accurate. You also will get the e-book of Engineering Drawing for Manufacture (Manufacturing Engineering Modular Series) from the publisher to make you considerably more enjoy free time.

Calvin Copher:

Don't be worry in case you are afraid that this book will certainly filled the space in your house, you may have it in e-book means, more simple and reachable. This Engineering Drawing for Manufacture (Manufacturing Engineering Modular Series) can give you a lot of close friends because by you looking at this one book you have matter that they don't and make an individual more like an interesting person. That book can be one of one step for you to get success. This book offer you information that might be your friend doesn't understand, by knowing more than some other make you to be great people. So , why hesitate? Let me have Engineering Drawing for Manufacture (Manufacturing Engineering Modular Series).

Williams Carter:

As a pupil exactly feel bored for you to reading. If their teacher expected them to go to the library in order to make summary for some reserve, they are complained. Just tiny students that has reading's heart and soul or real their passion. They just do what the educator want, like asked to the library. They go to there but nothing reading seriously. Any students feel that reading is not important, boring in addition to can't see colorful photos on there. Yeah, it is to be complicated. Book is very important in your case. As we know that on this time, many ways to get whatever we want. Likewise word says, many ways to reach Chinese's country. So , this Engineering Drawing for Manufacture (Manufacturing Engineering Modular Series) can make you feel more interested to read.
