Are you struggling to get your head around John Dewey's educational pragmatism? What exactly is Jean Piaget saying about cognitive development? Maybe you're running out of time and patience making sense of Carol Dweck's mindsets? Have you reached breaking point reading Daniel T. Willingham on educational neuroscience?

Written for busy teachers, trainers, managers and students, this dip-in dip-out guide makes theories of learning accessible and practical. It explores over 100 classic and contemporary learning theorists in an easy-to-use, bite-sized format with clear relevant illustrations on how each theory will benefit your teaching and learning.

Each model or theory is explained in less than 350 words, many with accompanying diagrams, and the 'how to use it' sections, in less than 500 words. Every entry includes:

- **Do it steps** in order to apply the theory or model
- **Reflection points & challenges** to develop your understanding of how to apply it
- **Analogies & metaphors** from which understanding and meaning can be drawn
- **Tips** for the classroom
- **Further reading** if you want to explore a theory in greater depth.
