Is it really important that the wine we use for Communion be made only of grapes? Why not anoint the sick with corn oil instead of olive oil? Do the material parts of the sacraments really make that much difference? Yes, they do. In this unique and fascinating book, David P. Lang shows us why the material elements of the sacraments - like bread, wine, water, and oil - are absolutely crucial to our faith. You'll find not only the answers to your questions, but the reasons behind those answers. And in the end, you'll have learned something important about our relationship with God: that God cares for our material being as well as our spiritual being.
